We envisage that regional events will be held with a small number of schools coming together for an online zoom event lasting approximately 1 hour 30 mins. The number of schools grouped together will depend on team capacity and engagement by schools. Schools are encouraged to present the work to the group on the day, very similar to previous events we suggest a window of 5 to 7 mins per school to display student work. This can be done through audio, video or a physical presentation on zoom. The number of students chosen to present is at the discretion of the school. A digital certificate will be available for all students who participate. Suggestions for student entries:

All schools that participate will be sent a book token.
