This seminar (**limited to 2 teachers per school**) focuses on the DEIS themes of transitions and attainment through the use of the six-step process. Consideration will be given to how effective Teaching, Learning and Assessment is the core activity for engineering change in schools, particularly in DEIS planning. Participants will be afforded the time to collaborate and share their most effective teaching and learning practices which support students' transitions and attainment in the DEIS context. Participants will reflect on how the student, parent and teacher voice can support the implementation of the DEIS Action plan.
